Monthly Model Portfolio Factsheet As of 31/8/2022

Portfolio Information

Discretionary Fund Manager	INN8 Invest
Client Need	Medium Income, Medium Growth
Benchmark	ASISA South African MA Med Equity - Average
Outcome Objective	SA CPI +3-4% net of fees over rolling 4-yr periods
Launch Date	1 January 2022
Risk Profile	Moderate

Risk Description

This portfolio is suitable for investors who seek exposure to a diversified mix of asset classes, including growth assets, while limiting the risk of capital loss over the medium term. These investors have an investment time horizon of at least five years and are willing to accept periods of moderate market volatility in exchange for the possibility of receiving inflation-beating returns.

Investment Objective

The portfolio seeks to provide moderate long-term growth of capital and good income, with a low probability of capital loss over the medium term. Its objective is to outperform the ASISA South African MA Medium Equity peer average and to achieve a return of CPI plus 3-4% p.a. over four-year rolling periods.

Investment Strategy

The portfolio uses a multi-manager approach with a flexible asset allocation strategy. Asset allocation decisions are largely outsourced to the underlying portfolio managers. Manager selection and blending is an integral part of the service provided by the DFM and INN8 Invest as the appointed DFM of the portfolio, will monitor the portfolio on a continued basis ensuring alignment to all of the stated portfolio objectives.

What costs can I expect to pay?

The Solution launch date is 1 January 2022, and any performance prior to this is modelled using actual historical returns of the underlying portfolios as at inception for illustrative purposes. The Since Inception return figures reflect annualized performance since the start of the back-testing period of the model portfolio (not the period since the model was launched). The Since Inception date is 18 March 2016. It is not possible to calculate back-tested returns for periods earlier than this due to a lack of performance history for one or more of the underlying funds used in the model portfolio. Returns are not guaranteed and historical returns are not an indication of expected future returns.

Advice Fee | STANLIB Multi-Manager does not provide financial advice and therefore does not charge advice fees. However, where an annual advice fee has been negotiated between the investor and their financial adviser, the advice fee will be paid by the LISP via a repurchase of units from the investor's account.

Effective Annual Cost (EAC) | For Effective Annual Cost (EAC) calculations of the Solution, please refer to the investor's LISP statement. The Model Portfolio charge will be reflected in the "Other" category of the EAC table, whilst the in-fund fees of the underlying portfolios in the "Fees for Investment Management" category.
